

That's the Way It Goes

Peggy Lee

That's the way it goes
No one ever knows
Just like that, it only took a minute
And I belong to you

You can never tell
That's how fast I fell
I just thought that there was nothing in it
But that is far from true

Now I thought that I was clever
You couldn't take me by surprise
But I found I'd be in love forever
The moment I looked in your eyes

That's the way it goes
No one ever knows
Here's my heart and you deserve to win it
For that's the way it goes.
