Then Was Then (And Now Is Now)

Then was then And now is now Don't look back You can't look back somehow Sweet was sweet But not so bitter now Then was then And now is now You forgive And I will too Let's forget Unhappy times we knew We'll come out All shiny, bright and new Then was then And now is now Now, now we can win No matter what might have been Now we can begin again For then was then And now is now
