

You're So Right for Me

Peggy Lee

You're so right for me
Just the one for me
How I need your clinging caress
Your fabulous lips, your voice saying yes

How could I replace
The light that lights your face
Now I see the way it's meant to be
Cause you're so right for me

How could I replace
The light that lights your face
Now I see the way it's meant to be
Cause you're so right for me
