## **My Black Widow**

## **People In Planes**

Black widow in a white room will you survive?
Black widow in a white room with no diguise
Black widow in a white room you stand out a mile
Black widow in a white room

Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who to believe in Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who she's killing

Who'd you believe in

Black widow in a white room

Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who to believe in Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who she's killing

Who'd you believe in

She's such a liar
I'm gonna spy on her
You make me disappear with flick
of your little finger, why?
You make me!

Black widow in a white room will you survive?
Black widow in a white room with no diguise
Black widow in a white room you stand out a mile
Black widow in a white room, oh

Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who to believe in Black widow on a mission can't stand what she's missing Black widow on a mission she don't know who she's killing
