

Come And Get Me

Pepper

She love the way, yeah she love the way
Yeah she love the way you been
She love the way, yeah she love the way
Yeah she love the way you been

Drop in when the music hits the boulevard
What's your flavor?
Girl turn it up like no one's around, and if only you let down your guard, m
isbehave ya
Let this track bounce you up and down
Lick the rum off your lips between, your next sip making up words as you sin
g along
'Cause a record is a time machine, a round trip, feeling yourself when you t
urn it on
She just loves it all, when the music's right
So come on baby, this is your soundtrack
Move your body and dance all night

This is for the girls who just wanna sing, "Ooh-eeh-
yeah, if you want it, come and get it"
No use to resist, baby do your thing. Ooh-eeh-
yeah, if you want it, come and get it
Bounce you up and down 'till morning. Ooh-eeh-
yeah, if you want it, come and get it
Music is the answer to everything, and if you want it come and get the sound

She love the way, yeah she love the way
Yeah she love the way we been

It's the DJ, give it all away, it's free love
Hopping through the air cause you hypnotize
With the look like she wants to play, and she does
Watching her hands moving up her thighs
Her drink spilling down her arm, and it's wet
[?] pulsing to the bass and drums
While the night slips into the sun, I'm in it
[?]

She just loves it all, when the music's right
So come on baby, this is your soundtrack
Move your body and dance all night
This is for the girls who just wanna sing, "Ooh-eeh-
yeah, if you want it, come and get it"
No use to resist, baby do your thing. Ooh-eeh-
yeah, if you want it, come and get it
Bounce you up and down 'till morning. Ooh-eeh-
yeah, if you want it, come and get it
Music is the answer to everything, and if you want it go-oh-oh

She's livin' through her stereo, she wanna let go
A symphony's [?], she wanna let go
Her life inside the song she plays, she wanna let go
Her listening every day

This is for the girls who just wanna sing
No use to resist baby do your thing. Oh lord
Bounce you up and down till' morning. Ooh-eeh-

yeah, if you want it, come and get it
Music is the answer to everything. Ooh-eeh-
yeah, if you want it, come and get it
Now this is for the girls who just wanna sing, "Ooh-eeh-
