

Deep Country

Pepper

Deep in the country
Where the people are funky
And they all love their Auntie
Yes so sweet and so spicy

Yeah people ride slow here
And they mostly they don't care
And the weather is so clear
Just lay back and just soak it

Girls can get naughty
Especially at parties
Everyone is a hottie
And is perfect for Papi

Nights will go long here
So I hope you brought swimwear
Cause they all wanna know
If you're ready to let go

So if you gotta hunger
And you gotta leave the city tonight
Whatcha friends don't know
And people won't show
Is the country got the real vibe

Hey young girl
Whatcha doin' whatcha doin' tonight?
Whatcha parents don't know
We'll keep it on the low
So meet me in the country tonight

Deep in the country
Sticky green tastes like honey
Now your memory get's fuzzy
Everything is so lovely

Ladies roll by here
Wearing less than a smile here
And they all wanna know
If you're ready to let go

So if you gotta hunger
And you gotta leave the city tonight
Whatcha friends don't know
People won't show
Is the country got the real vibe

Hey young girl
Whatcha doin' whatcha doin' tonight?
Whatcha parents don't know
We'll keep it on the low
So meet me in the country tonight

Oooooohh don'tcha wanna go
Said your feeling low
So get outta town yeah yeah yeah

Deeeep in the country
Some people movin' free
That where you wanna be yeah

So if you gotta hunger
And you gotta leave the city tonight
Whatcha friends don't know
People won't show
Is the country got the real vibe

Hey young girl
Whatcha doin' whatcha doin' tonight?
Whatcha parents don't know
We'll keep it on the low
So meet me in the country tonight
