

# Higher Ground

Pepper

Ring ring, here's another thing  
Eating up the rest of my day  
I think I would like to run  
But I just wasn't raised that way  
Your problems are the biggest ones  
But nobody would agree  
I'm thankful for the air right now  
Even though it's probably killing me

It upsets you  
It upsets me  
Well, this is why we disagree  
Eye to eye, you always see is that

There's always something for you not to do  
So many people, different points of view  
Right or wrong, it changes every day  
A higher ground is where I think I'll stay  
A higher ground is where I think I'll stay

Some touched to the photograph  
With some resting on my skin  
Desires not to complicate  
That is how it all begins  
That cholly's sitting next to me  
As we converse on a bottle of red  
Some opinions I will never see  
But whom are to argue with the dead

It upsets you  
It upsets me  
Well, this is why we disagree  
Eye to eye, you always see is that

There's always something for you not to do  
So many people, different points of view  
Right or wrong, it changes every day  
A higher ground is where I think I'll stay  
A higher ground is where I think I'll stay

I'll take some time for me  
'Cause I haven't really wasted life away  
Happens all too easily where I wanna be  
Someplace better moving  
It's like I'm always waiting for the green light  
There's always something for you not to do  
So many people, different points of view  
Right or wrong, it changes every day  
A higher ground is where I think I'll stay  
Uh!

There's always something for you not to do  
So many people, different points of view  
Right or wrong, it changes every day  
A higher ground is where I think I'll stay  
A higher ground is where I think I'll stay  
A higher ground is where I think I'll stay

A higher ground is where I think I'll stay  
A higher ground is where I think I'll stay

Ring ring, here's another thing  
Eating up the rest of my day  
I think that I would like to run  
But I just wasn't raised that way  
I think that I would like to run  
But I just wasn't raised that way  
I think that I would like to run  
But I just wasn't raised that way
