Party of your life
P-P-Party of your life
Life, life, life, life, life, life
Party of your life
P-P-Party of your life
They try to shut us down but it feels so nice

Party of your life
P-P-Party of your life
Party of your life
It's a party of your life
Party of your life
P-P-Party of your life
They try to shut us down but it feels so nice

You wonder why it took us so long
For us to figure out, what went wrong
That really hurts a lot
We more than a fight, more than a fall
We've been livin' such a cliché
Even texting on the freeway
Telling our friends all the shit we did, so get on you knees and pray
Say, "Lord, just let us live the life we want, so we can raise some hell!"
Maybe we should go out tonight, and we can sing it in song:

'Cause there's a party here tonight
And everyone's invited cause they love the life
We could act a fool if the fool is polite
So we should raise some hell with everybody tonight
Cause this ain't nothing but the party of your life
Know you gotta wear your shades cause it's gonna get bright
Never see, could shortly here still be living some time
Thought that party was a dream, but this is your life

Party of your life
P-P-Party of your life
Party of your life
It's a party of your life
Party of your life
P-P-Party of your life
They try to shut us down but it feels so nice

'Cause we been waiting here all week long
Finally got the bat, it's time to hit it long
Come get your ups and your downs
'Cause that's what this crazy life is all about
I bet you love to see the replay
Popping bottles on your birthday
Take your big plans, throw 'em all away
Cause we callin' in sick today
Just say it, "Lord, just let me live the life I want, so we can raise some hell!"
'Cause this is your big chance
So shake it real hard mama, hard as you can

'Cause there's a party here tonight
And everyone's invited cause they love the life

We could act a fool if the fool is polite
So we should raise some hell with everybody tonight
Cause this ain't nothing but the party of your life
Know you gotta wear your shades cause it's gonna get bright
Never see, could shortly here still be living some time
Thought that party was a dream, but this is your life

'Cause life is like a summertime peach:
Crazy juice, crazy sweet
Kinda knocks you off your feet
'Scuse me playboy, 'cause I'm about to take your seat

'Cause there's a- there's a- there's a- there's a- party here tonight
And everyone's invited cause they love the life
We could act a fool if the fool is polite
So we should raise some hell with everybody tonight
Cause this ain't nothing but the party of your life
Know you gotta wear your shades cause it's gonna get bright
Never see, could shortly here still be living some time
Thought that party was a dream, but this is your life

There's a- there's a- party here tonight
P-Party of your life
Party of your life
It's a party of your life
We could act a fool if the fool is polite
Party of your life
P-Party of your life
They try to shut us down, but it feels so nice
This ain't nothing but the party of your life
Party of your life, it's a party of your life
Never see, could shortly here still be living some time
Party of your life, it's a party of your life
Thought it was a dream, but this is your life
Party of your life, it's a party of your life...
