

# Start You Up

Pepper

There's always more than just one place to find me  
And if you can't, all you gotta do is call  
I can't sleep when I'm feeling that feeling  
I know you know I want it all

Full top my mind, it won't stop, just keeps on knockin'  
Can't shut it down with the push of a button  
Cause I need that one thing I'm missing  
So I won't you let me

Start you up  
Move a little bit closer  
If I start you up  
And do whatever with me  
When I start you up  
Cause I know you'll keep on comin'  
And comin' and comin'  
Back for more

Just a matter of time to seal it  
That's my answer waiting if you asked  
A liquid measure could help reveal it  
You know I know we'll make it last

It's time your mine, it won't stop, just keeps on knockin'  
Cant shut it off with the push of a button  
Cause you need that one thing you're needin'  
And I'm here, if you want me to

Start you up  
Move a little bit closer  
If I start you up  
And do whatever with me  
When I start you up  
Cause I know you'll keep on comin'  
And comin' and comin'  
Back for more

Start you up  
If I start you up  
When I start you up  
I know you'll keep on comin'  
And comin' and comin'  
Back for more

Come on, girl  
Start you up  
Back for more  
Come on, girl  
Start you up  
Back for more  
Come on, girl  
Start you up  
(I'm comin')  
Back for more  
Come on, girl  
Start you up

(I'm comin')  
Back for more
