

Breathe Life Into Me

Per Gessle

I know it's in the air
I know it's not too late
I've been abandoned everywhere
Around the bend and down the straight

Breathe life into me
Breathe life into me
Breathe life into me
And make it happen
You can make it happen

I used to hear and speak
I used to dive in deep
Oh won't you show me what to keep
Before my senses fall asleep

Breathe life into me
Breathe life into me
Breathe life into me
Make it happen
You can make it happen
