

Far Too Close

Per Gessle

This is a time out of the blue
I think about you
In a room with a view

When we made love erasing the lows
Like the sun when it snows
We made wishes come true

Being alone was never known to be easy
Whatever will come
No one really knows
Whatever I've done
I've let you run away too easy
Oh I've let you come
Far too close
Far too close
Close

Hey, I thought I'd locked you out
I usually do
It was always about me
Never about you

But I don't really mind
You're taking my time
Flashing a smile
And making me high

Being alone was never known to be easy
Whatever will come
No one really knows
Whatever I've done
I've let you slip away too easy
Oh I've let you come
Far too close
Far too close
Close
