

Something In The System

Per Gessle

There's something in the air
There is something in the system
I can't sleep or stay awake
It's far beyond my wisdom

And I really get so high
I can't get you off my my my mind
This has to be a sign
A sign of the times

Mind a little tenderness
I'm empty and so hollow
I swear to god
I can see your face upon my pillow

And I really get so high
I can't get you off my my my mind
This has to be a sign
A sign of the times

And I
I'm thinkin day and night
How to make it right
Cos I wanna be inside
So deep inside your mind ooh
So deep inside your mind heey
