

Left Behind

Pertness

Death is running through my veins
I'm a time bomb ticking down to the end
They don't care about my pain
Poisoned words take me out of control

Days will come
Words of hate
Master of my fate

Days will come
Words of hate
All will done

Don't want to be left behind
Someday the world will pass you by
Don't want to be left behind
Take me to your ground zero now

Tunnel vision, I feel the heat
Lost in phobia, veiled in flames of the end
Reached the point of no return
Vicious war, resurrection of hell

Days will come
Words of hate
master of my fate

Days will come
Words of hate
All will done

Don't want to be left behind
Someday the world will pass you by
Don't want to be left behind
Take me to your ground zero now
