

# My Prophecy

Pertness

I'm the master, the only one  
I'm the voice in your mind  
My words are burned into your soul - in your soul

Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy  
Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy

My prophecy, my prophecy

I'm the master of everything  
You're enslaved - forever  
I'm the soul that feeds you will - feeds your will

Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy  
Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy

My prophecy, my prophecy

Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy  
Disillusion's rising, slave to the media  
Falling into darkness, this all will be my prophecy

My prophecy, my prophecy  
My prophecy, my prophecy
