

This intense feeling of not being  
Has taken the soul into a dissonance  
When the inner core is not seeing  
And cannot find any anchors of relevance

The transition of life into the next  
Can sometimes be so surreal  
Mental protection now is in effect  
To preserve the soul from the feel

Amongst the spirit worlds and deities  
You will have to find your place  
Eternities of wisdom and prophecies  
Mental projection at your own pace

The transition of life into the next  
Can sometimes be so surreal  
Mental protection now is in effect  
To preserve the soul from the feel

Repeated psychosis  
Inside the derkened void  
Demonic hypnosis  
Human intellect destroyed

This intense feeling of not being  
Has taken the soul into a dissonance  
When the inner core is not seeing  
And cannot find any anchors of relevance

The transition of life into the next  
Can sometimes be so surreal  
Mental protection now is in effect  
To preserve the soul from the feel
