

# Horror Detox

## Pestilence

The agony and pain  
To have to let go  
The cold reality  
Of not being in control

The body starts to tremble  
The breaking of the will  
Addiction now is the enemy  
Makes you want to kill

Despair now takes over  
Crawling on the floor  
I need something to ease the pain  
Demons in my head roar

Horror Detox

Help me with my suicidal urge  
Distortions in my head  
My soul that is now burning  
Kill me, I want to be dead

Horror Detox

This trembling makes me go insane  
I need to make it stop as I carve my skin  
Numb this horrible feeling, my aim  
Please erase the person I have been

Despair now takes over  
Crawling on the floor  
I need something to ease the pain  
Demons in my head roar
