Greyhound Girl

Pete Townshend

Each time we come here I see we'll never come here again Each time we make love I say we'll never make love again But, my little greyhound girl You got me running, down the flat But, my little greyhound girl I'm in your dreams

Each time we ride out I say we'll never ride out again And, when we kiss I say we'll never, never kiss again But, my little greyhound girl You got me running down the flat My little greyhound girl I'm in your dreams

I'm looking for reasons
I'm looking for reasons

But there ain't a why or a where for to live around my little greyhound girl You've got me running, down the flat My little greyhound girl I'm in your track
