

Down With The Sun

Peter Criss

Hey Baby, how've you been
I hear you're running around again
I don't care anyway
You'll have to deal with yourself someday

If you abuse it you can lose it
You know you love that dirty water
You're going down with the sun

If you got emotion and you got the notion
You can go down on me any time
I really don't mind
I really really like it
When you look at me it kinda shakes me inside

You don't mind the way she moves in
You know you love that dirty water
You're going down with the sun
