

Feel Like Heaven

Peter Criss

I can make your heart pound
You can feel the beat
I can make the earth quake
Underneath your feet
I can start you burnin'
Like no other man
I can make you feel like
Heaven, yes I can

When you feel my arms around you (around you)
Don't you hesitate (hesitate)
Just make up your mind
And open your heart
Before it's too late

I can whet your appetite
I can give you love
I can guess what's on your mind
What you're thinkin' of
I can be so serious
Love you through the night
You'll fall in love with me
Together we'll do it right

[Chorus]
Feel like heaven
Feel like heaven
I can make you
Feel like heaven (uh-huh)

Now I'm not superstitious
Don't need astrology
Don't need no ball of crystal
To tell me what I see
Don't need no premonition
Don't you understand
I can make you feel like heaven, yes I can

Feel like heaven
I can make you
Feel like heaven
You know you wanna
Feel like heaven (uh-huh)

[Solo]

I can make your heart pound
You can feel the beat
I can make the earth quake
Underneath your feet
I can start you burnin'
Like no other man
I can make you feel like
Heaven, yes I can

When you feel your temperature rising (temperature rising)

Don't you hesitate (hesitate)
Just make up your mind (make up your mind)
And open your heart
Before it's too late
