

Move On Over

Peter Criss

I ain't gonna be no whipping boy for you no more
I'm tired of swallowing my pride
I wanna tell you just the way I feel
I got a heart made of steel
You just move on over
Look who's back in town
You just move on over
Look who's back in town

I feel like Gary Cooper in the noon days sun
My heart's a loaded 44
I've spent a lifetime burning up inside
You can run but you can't hide
So just move on over
Look who's back in town
You just move on over
Look who's back in town

I ain't gonna let you hurt me
No more, no more, no more, no more
I ain't gonna let you hurt me
No more, no more, no more, no more

I see you standin' right in front of me
But the way that I feel
With my heart made of steel
You better move on over
Look who's back in town
You just move on over
(Move on over)
Move on over
(Move on over)
Move on over
Look who's back in town

I see you standin' right in front of me
But the way that I feel
With my heart made of steel
You better move on over
Look who's back in town
You just move on over
(Move on over)
Move on over
(Move on over)
Move on over
Look who's back in town

Move on over
Move on over
Move it on over (I got a big surprise for you girl)
Move on over (You ain't going nowhere)
Move on over (Where you'll be spinning so fast)
Move on over (They gonna be calling)
Move on over (CC Driver)
Move on over
Move on over
Move on over
