

# Hard Earned Love

Peter Frampton

Girl you got an appetite  
I never stood a chance, it was love at first bite  
You're eating me alive  
Yeah like a spider to a fly  
Tender is the price you pay  
There's not a man alive gonna stand in your way  
You gotta have it all  
No order too small

You got my devotion  
You took all I had  
It's such a precious thing  
You gone and broken my heart  
It's not an idle notion  
Don't keep me waiting around  
Hanging on a string

You're spending all my hard earned love  
And I ain't gonna give it up (give it up)

You're so hard to satisfy  
You got the moon in your hand and the stars in your eyes  
Too hot to keep  
I know I'm in too deep  
I don't need no I.O.U.  
You can never pay me back, you can never undo  
What you done to me  
And you still don't see

You got my devotion  
You took all I had  
It's such a precious thing  
Now you broke this heart  
It's not an idle notion  
Don't keep me waiting around  
Hanging on a string

You're spending all my hard earned love  
And I ain't gonna give it up (give it up)

Was a time when I'd come back  
Crawling on my knees to you  
I gave you all my love and you threw it away  
What does it take for you to realize  
That it's over now  
There's nothing left to save

I know we need a miracle  
'Cause when I see you cry, no tears will ever fall  
How I wanted you  
To love me the way that I loved you

You got my devotion  
You took all I had  
It's such a precious thing  
Now you broke this heart  
It's not an idle notion

Don't keep me waiting around  
Hanging on a string

You got my devotion  
You took all I had  
It's such a precious thing  
Now you broke this heart  
It's not an idle notion  
Don't keep me waiting around  
Hanging on a string

You're spending all my hard earned love  
And I ain't gonna give it up (give it up)  
You're spending all my hard earned love  
And I ain't gonna give it up (give it up)  
You're spending all my hard earned love  
And I ain't gonna give it up (give it up)  
All my hard earned love  
Give it up  
You're spending all my hard earned love  
And I ain't gonna give it up (give it up)  
All my hard earned love  
I ain't gonna give it up
