

Low Tar Stars

Peter Murphy

Selling fake religion
The same old scenery
The path of Marlboro lights
Low tar stars

Only stars when they're out of reach
If lowered are just hot and burning things
Get too close to a star
Low tar stars

Hyper God sales strategies
Vicious hearings aids
Welcome to the real world
Of you're sleeping
Low tar stars

Dispossessed funny animals
And a million no's
Move in on you
With a million no's
Move it, move it

In love
From love
In love
With love
Of love
As love

From love
With love

Super sprayed on hairdos
And out to do on you
Reflex icons bark
Low tar stars

Out of the flat philosophy door
With love we feel to value strongly
Get far away from that car
Low tar stars

Dispossessed funny animals
And a million no's
Move in on you
With a million no's
Move it, move it

In love, we feel strongly
From love, we feel beauty
In love, we feel strongly
With love, we feel beauty

Of love, strongly
As love, with beauty
From love, strongly
With love, beauty

Strongly, with beauty
Strongly
Beauty

In love, we feel strongly
From love, we feel beauty
In love, we feel strongly
With love, we feel beauty

Of love, strongly
As love, with beauty
From love, strongly
With love, beauty
