

Only Dreams

Peter Schilling

Every day you sit near the TV
Who always get the girl, "Wish it were me"
Dreams, only dreams

Every night you look out on the street
Wanting to talk to the woman you see
Dreams, only dreams

You sit there watching the world pass you by
Completely unable to qualify
What most humans do is talk about machines
Give instructions
Give commands
Un-feeling
Un-caring

You don't have a Cadillac
And you'll never taste a good cognac
Dreams, only dreams

You sit there watching the world pass you by
Imprisoned always cause you can't die
But other computer talk about revenge
Give instructions
Give commands
Un-feeling
Un-caring
