

Swear Enough

Petr Poláček

I swear enough, now I'm asking for your favour
Swear enough, I'm not everyone
Swear enough, I say I wanna be your hero
Swear enough, ooh, no more have to run

You see this moment for last desire
For my deepest dreams
Together be again

I wanna be good
It's my heart, it calls you back
I wanna be right
I'll give you all my love
I wanna be good
I will never make you sad
I wanna be nice
I swear you everything, everything

I swear enough
In the night I wish to hold you
Swear enough, ooh, really coming to, yeah
Swear enough, please believe I won't to hurt you
Swear enough, ooh, tell me, what I have to do, yeah

You see this moment for last desire
For my deepest dreams
Together be again

I wanna be good
It's my heart, it calls you back
I wanna be right
I'll give you all my love
I wanna be good
I will never make you sad
I wanna be nice
I swear you everything, everything

I wanna be good
It's my heart, it calls you back
I wanna be right
I'll give you all my love
I wanna be good
I will never make you sad
I wanna be nice
I swear you everything, everything
