

Let Go

PFR

If there is only one God, why do we serve so many
If there is only one law, why do we live like there aren't any
I'm not trying to get you down. I just want you to know
That if you're gonna live for God, you've got to let go

Gotta let go of the little things, before they get you down
Gotta let go or they'll drag you to the bottom and hold you down
It's a war we all fight, and compromise is the battleground
But if you're ever gonna grow, you've got to let go

If there is only one truth, one original way
Why do we search like blind men
Can't see the sunshine in the light of day
We've got to turn around and run the other way
Cause if we're gonna live for God,
We've got to turn away

Turn away from the little things
Before they get you down
Turn away or they'll drag us to the bottom
And hold us down
It's a war we all fight
And compromise is the battleground
But if we're ever gonna change
We've got to turn away

(chorus)
