

Move, You Lose!

Phenomena

Can you feel it
don't make a sound
what's going on?
what's going down?
tension's rising
your heart jumps a beat
take it easy
the heat's on the street

hold on! hold on! hold on!

shadows flashing
out of the light
silence echoes
into the night
take my hand
let's walk a straight line
keep it close
keep it out - keep in time

hold on! hold on! hold on!

move
you lose!
standing in the spotlight
finger's on the trigger

move
you lose!
the temperature is rising
you begin to shiver
