

## A New Star

Phil Keaggy

My mother, she was a queen in her time and her children sang  
No other could bring the meaning to rhyme as she did each day  
We loved her and now there's a new star in her eyes  
We wonder and long to be joined there on high, by and by.

My father, he gave what he could provide, how he sacrificed  
And of him, no better words could describe how he paid the price  
We loved him, now there's a new star in his eyes  
The wonder of them being joined there on high, sweet, by and by  
.

My brothers and sisters have faith in His time, He will keep our lives  
Together there is a place so sublime where His family thrives  
Forever, now there's a new star in our eyes  
We wonder and long to be joined there on high, sweet, by and by  
.
