

# A Sign Came Through A Window

Phil Keaggy

Keaggy

Let the sad eyes of the former days  
Worries in the winter blow away  
One of these painful stories may find a life

Let me say it in your ear now  
If you want a life and you're out of luck  
How in heaven's name will you win tonight ?

A sign came through a window  
Take a look, see how  
I'm amazed at what you know now  
What you know now

Paralyzed from another's cup  
Got to learn in the ways of the Master  
Anyway the candle is still lit

'Cause anyway you know it  
And your heart says you should  
When you got it, you know you'll never have to knock on wood

A sign came through a window  
Take a look, see how  
I'm amazed at what you know now  
What you know now

What you know now  
Have you ever wondered what's beyond ?

Sundays real honesty  
Declarations of dependency  
Confessions of an eternal struggle here

A sign came through a window  
Take a look and see how  
I'm amazed at what you know now  
What you know now

Paralyzed from another's fall  
Got to learn in the ways of the Master  
Anyway the candle is still lit

'Cause anyway you know it  
And your heart says you should  
When you got it, you know you'll never wave to knock on wood  
When you got it, you know you'll never wave to knock on wood  
When you got it, you know you'll never wave to knock on wood

Have you ever wondered what's beyond ?
