On Sunday morning
A beautiful Sunday
Love, I taught you how to ride
Yeah, I taught you how to ride
On a bright autumn day

Leaves covered all the hillside Orange red and gold And we were riding on the backroads And darling I do love the sound

Of a motorbike and you beside me We rode on and soon we found A hidden place out in the country And laid a blanket on the ground We laid our blanket on the ground

The Old Natchez Trace

Not far from our home The wind in our faces A simple joy to behold

When I'm gone away and I remember That autumn day you learned to ride That autumn day you learned to ride And I long for another Sunday

Of a motorbike and you beside me We rode on and soon we found A hidden place out in the country And laid a blanket on the ground Hhhhmmmm

A hidden place out in the country Laid a blanket on the ground
