

## Think About It

Phil Keaggy

What kind of life could you live  
If you couldn't live it right?  
No, don't tell me now, think about it tonight.  
What's in the cup, could you give  
If you couldn't give it up?  
Oh, don't tell me now, think about it tonight.

Think about it, think about it  
Think about it, think about it

What kind of dreams could you have  
If they're only little schemes?  
No, don't tell me now, dream about it tonight.  
What will you gain  
If you win the world and you go insane?  
Oh, don't tell me now, but think about a real life.

Think about it, think about it  
Think about it, think about it

Live to see your dreams fulfilled,  
Give receive it's your free will.  
Just believe and peace be still,  
You'll be free but not until  
You think about it, you think about it.

Where will you run  
When you feel the dark and you come undone?  
No, don't tell me now, think about it tonight.  
What kind of life could you live  
If you couldn't live it right?  
No, don't tell me now, think about it tonight.

Think about it, think about it  
Think about it, think about it  
Live to see your dreams fulfilled,  
Give receive it's your free will.  
Just believe and peace be still,  
You'll be free but not until  
You think about it, you think about it.
