

You Have My Heart

Phil Keaggy

In the morning I see you
Yours is the smile that sets my day apart
All through the day you have my heart

You have my heart
And I'm blessed with who you are
You have my heart
All through the day there's nothing better
Nothing as sure, this heart is yours
This heart is yours

In the afternoon when I feel alone
That's when I see you smiling at me
That's all it takes

You have my heart
And I'm blessed with who you are
You have my heart
All through the day there's nothing better
Nothing as sure, this heart is yours
This heart is yours

Evening comes with sunset
To close a day filled with yearning to be home
Closer to you is where I want to be

You have my heart
And I'm blessed with who you are
You have my heart
All through the day there's nothing better
Nothing as sure, this heart is yours

You have my heart
And I am blessed with who you are
You have my heart
All through the day there's nothing better
Nothing as sure, this heart is yours
This heart is yours
This heart is yours
