

It's Gotta Be Love

Phil Stacey

I'm steppin' out
I don't care what anybody thinks
I'll leave it all and go there alone
If that's what it takes

The world's burning down
And I have been watching the flames
Now I think that it's time
To put it on the line

If anything can save us now
It's gotta be love
That shows us the way
And the sun's gonna shine someday

To break through the rain
To bring on a change
It's gotta be love
It's gotta be love

I don't know it all
But I've seen enough to know that
We're lost and we're found
But through it all somehow

Hope is calling us to see
It's gotta be love
That shows us the way
And the sun's gonna shine someday

To break through the rain
To bring on a change
It's gotta be love
It's gotta be love

Open up your heart
And you can feel it rushing in
That's when it all begins
It all starts changing

Nothing feels the same
When love is washing over you
It's something only love can do
It's gotta be

It's gotta be love
That shows us the way
And the sun's gonna shine someday

To break through the rain
To bring on a change
It's gotta be love

It's gotta be love
That shows us the way
And the sun's gonna shine someday

To break through the rain
To bring on a change
It's gotta be love, love
It's gotta be love, it's gotta be love
