## **Looking Like Love**

Started off easy Downtown, the lights comin' on The sun goin' down You were leanin' back on me Just messin' around Puttin' your hair up in a ponytail Boat on a river Floatin' by, that's when you looked at me With somethin' else on your mind I took a chance And kissed you right on your smile Felt somethin' I ain't never felt But we knew somethin' just got set in motion How could we have known We were standin' on the edge of forever We didn't know where this was goin' But we were together and that was enough And when the sun came up Yeah, it was looking like love

No time to wonder What lied past the curve of the earth Our place on that grass It fell out of nowhere It happened so fast We were just holdin' on

So free, runnin' on young and innocent Baby, here we are Lookin' back on where we started Like love It was looking like love Yeah, baby Phil Stacey
