I work my job all the way to the weekend Call all my buddies, ask where you been Let's get together somewhere, seven o'clock Wanna pop a top, pop a top Wann go, wanna roll, wanna rock it

Hey, hey let's make some good ole days Hey, hey let's make some good ole days That's right, Let's make some good ole days tonight

Hey, baby, what's the chance you dancing with me?
Been watching you all night
Like what I see
That big old moon is shining down from above
You know it's stirring up magic stuff
This could be the night we fall in love

Ice cold, wild free
Night's young for you and me
Let's do something that we'd never dare
Something we'll be talking about in our rockin chair

Hey, hey let's make some good ole days Hey, hey let's make some good ole days
