

He Believes In Lost Causes

Phillips, Craig & Dean

I see people on the street
With their heads hung down
Then I hear somebody say
They're just too lost to ever be found
But God can save the most hopeless case
You'd never believe all He's done, yeah
I've seen too many miracles
God knows I am one

He believes in lost causes
Common sense would just give up
He believes in lost causes
Changes people with His love
There's nobody too far gone
No one beyond His reach
He believes in lost causes
'Cause He believed in me

He believes, He believes in me, yeah
He believes, He believes in me, yeah

I have learned to never say
There's a hopeless cause
I just look at what I've become
Think back to what I was
When others would have given up
Let me go my way, yeah
God kept reaching out for me
That's why I can say

He believes in lost causes
Common sense would just give up
He believes in lost causes
Changes people with His love
There's nobody too far gone
No one beyond His reach
He believes in lost causes
'Cause He believed in me

Oh, yes, He did
He believed in me
He believes

He believes in lost causes
Common sense would just give up
He believes in lost causes
Changes people with His love
There's nobody too far gone
No one beyond His reach
He believes in lost causes
'Cause He believed in me

He believes in lost causes
Common sense would just give up
He believes in lost causes
Changes people with His love
There's nobody too far gone

No one beyond His reach
He believes in lost causes
'Cause He believed in me

He believes in lost causes
Common sense would just give up
He believes in lost causes
Changes people with His love
There's nobody too far gone
No one beyond His reach
He believes in lost causes
'Cause He believed in me...
