

One Single Light

Phillips, Craig & Dean

Billions of people begin and end every day
With the question, "What am I searching for?"
And in this world of disappointment
Every soul is reaching out
For something pure, something right
Something perfectly bright

There is one single light in a world of darkness
One single light in a world of gray
One single light shines through the night
Jesus is His name, Jesus is His name

Billions of people have heard this name
Yet don't know of its power
Assume it's just a word
But when you call the name of Jesus
In an instant He is there with open arms
To rescue you, to see you through
He's the way, the truth

There is one single light in a world of darkness
One single light in a world of gray
One single light shines through the night
Jesus is His name, Jesus is His name, yeah

Wonderful Counselor
Mighty God, Prince of Peace
Eternal Father God with us
One single light in a world of darkness
One single light in a world of gray
One single light shines through the night
Jesus is His name, Jesus is

The one single light in a world of darkness
One single light in a world of gray
One single light shines through the night
Jesus is His name
(Jesus, the one single light)
Jesus is His name
