

Closer

Philmont

They have calculated outcomes
We just pray the numbers lied
It's all calm here on the surface
But a war rages inside

And she lays still tonight
She lays still tonight

Pull me closer while I count the days
Till I see your face
Till I look into your eyes
When I'm tired you can carry me
Till I see your face
Till I look into your eyes

We can fire back
Another plan of attack
Something to put the scales
In our favor again
We're expecting less
We just allow the glass
To drain empty through the
Cracks in the bottom

And wash away (away [away])
Don't wash away tonight

Pull me closer while I count the days
Till I see your face
Till I look into your eyes
When I'm tired you can carry me
Till I see your face
Till I look into your eyed
Pull me closer while I count the days
Till I see your face
Till I look into your eyes
When I'm tired you can carry me
Till I see your face
Till I look into your eyes

This is life
And I am passing through
But this world has been caught lying
About what it is I'm here to do
This is life (this is my life)
Its mine to waste or use

But its time that I decided
Its time for me to choose
Cuz who am I (this is my life)
You would die to prove
That the worthless are all worth it (this is my life)
The curse has been removed
This is life (this is my life)
All though I'm passing through
I wanna live as if I'm dying
Dying to get close to you

This is life
And you would die to prove
That the worthless are all worth it
The curse has been removed
This is life (this is my life)
And I am passing through
I wanna live as if I'm dying
Dying to get close to you
To you
