

Sing Something

Piano Magic

Sing something that i know
sing something before i go
he said he'd be here
but he didn't show
so sing something that i know

i've missed the last train
it did not wait
now i'm abandoned to my fate
so sing something that i know
sing something sad and slow

the bar is closing
they want me out i came here with joy i leave without
so sing something that i know
sing something sad and slow
