

Edge of Hell

Picture

Come on and feel that power
Come on it tastes so sweet

Time to think about my reputation
Time to try to get to higher ground

Thats the inferno's daughter
I gotta treat her right

What I want is not my expectation
What I want is not what you concieve

Edge of hell
Standing at the edge of hell
Edge of hell
And I should have known damned well

Come on I need it hotter
Come on I burn it bright
Time to try another combination
Time to try and get us burning right

Edge of hell
Standing at the edge of hell
Edge of hell
And I should have known damned well

Edge of hell
Standing at the edge of hell
Edge of hell
And I should have known damned well

Edge of hell
Standing at the edge of hell
Edge of hell
And I should have known damned well

Edge of hell
Edge of hell
And I should have known damned well

Edge of hell
