

Lady Lightning

Picture

Trees are silent sky is grey
Thunder storm is coming this way
Lady lightning somewhere up there
Thundering laugh she don't care

Thunder is cracking the sky
Lightning is striking
I don't wanna die

Rain is hammering on my window
Even in here you feel the wind blow
All those clouds very frightening
I can see lady lightning

Thunder leads her magical sound
When her lightning strikes the ground
Oh she's got a mind of a snake
Making you shiver and shake
