

Stand Back For The People In Charge

Picture

Police cars on the scene of a crime
Curious people everywhere
Too late they couldn't get there on time
But dead bodies just don't care

Stand back for the people in charge
Do you know what's going on
Stand back for the people in charge
But the killer is already gone

The move the body away after takin' the pictures
Looking for evidence big or small
It's daily routine in a big city jungle
Who'll be the next to fall

A young cops first day has started
Just trying not to faint
The dead man's face he'll always remember
But soon he'll be trained

Stand back for the people in charge
Hey do you have an alibi
Stand back for the people in charge
You better tell them no lies

The move the body away after takin' the pictures
Looking for evidence big or small
It's daily routine in a big city jungle
Who'll be the next to fall

Stand back for the people in charge
Do you know what's going on
Stand back for the people in charge

Stand back for the people in charge
Hey do you have an alibi
Stand back for the people in charge

Stand back for the people in charge
Do you know what's going on.....
