Strange tension in the harbor tonight I watch the rich girls down on Duke St. pass me by That pass me by Now the nausea's In my guts And I'm wrestling with doubt The kind you get when your heroes Sell you out And as I watch the drawbridge come down There's mass extinction On my mind Extinction on my mind Extinction on my mind Extinction On my mind Human cruelty stains my thoughts jet black I've got this feeling Like things have gone too far and now we can't get back
