

# Morphine Machine

PIG

My morphine machine  
My sex and guillotine  
My vaccine, my queen  
My kerosene  
My extreme regime  
My nitroglycerine  
Your obscene but so clean  
My spanking new has been

We don't want trash, we don't want treasures  
We just want dirty little pleasures  
We don't want waste, we want a cure  
We want our poison, give it pure

My pollution, my evolution  
Counter revolution  
My confusion, my solution  
My execution  
My lesson, transgression  
A little indiscretion

We don't want trash, we don't want treasures

We just want dirty little pleasures  
We don't want waste, we want a cure  
We want our poison, give it pure  
I'm a vulture for your culture  
Cleanest on the streets  
I delete and I complete  
That filth between my sheets  
Ignore the pain  
Feed the vein  
The righteous rain  
Forever stains

We don't want trash, we don't want treasures  
We just want dirty little pleasures  
We don't want waste, we want a cure  
We want our poison, give it pure
