

## His Phase

Pinback

Everything going by  
Conversations liked to falter to the side  
Everything ever said opened wide  
Every time that you speak I just die

Darkness flows through you  
We can't keep the rain from getting in  
Storm will cut through you  
We can't withhold a thing

And then they come up to me with hello and goodbye  
As if the challenge to beat was if they could do it by yourself

You rewatch and and return again  
Gifting backwards

Tumble into your surprise  
Word busting every time  
Soon your world and your brain will collide  
Hope I won't be around when you forget to fly

Darkness flows through you  
We can't keep the storm from settling in  
We can't rescue  
Hopeless, we can't do anything to help

And then they come up to me with hello and goodbye  
As if the challenge to beat was if they could do it by yourself

One to fix you, one to take you on  
One to heal you, one to lead you on [x3]
