

Without Me

Pinhead Gunpowder

People come and go there's a lot of
Places believe me I know worth
Going to worth leaving from but
Please take me when you leave or
Believe in me and stay

If I said I couldn't go on living
Without you now that would be a lie
But if you knew how it looks inside
My head my house is really bad enough
But this is really bad it's pretty bleak
And I'll be very sad at least if
You decide to leave
Without me

Cuz this only happens once in a great
While five or ten times in a lifetime
Maybe less I don't know but I don't
Want to blow my chance this time around

I shouldn't be so worried I mean we
Just met but just like the first time
You saw me you said "Now there's a guy
Who never sticks around" I guess we
Have that much in common and that's
Why you hunted me down

Isn't that sweet?
Please don't leave
Without me
