

Big Machine

Pink Cream 69

Now step inside, your dream machine
And drive it with your passion through the night
In your heart and soul you feel the beast
Gotta drive it faster than the speed of light

Got your hands upon the wheel
Now it's time to test your nerves of steel

It's not a nightmare, it's time for you to dare
And take your place in a big machine
It's like a lost dream, it's not all that it seems
Get your place in a big machine
Your time has come

And come alive

You feel the engine begin to roar
It's time to push the pedal to floor
There'll be lots of danger along the way
Just holding on to live another day

Feel your passion come alive
Don't forget you're on a power drive

It's not a nightmare, it's time for you to dare
And take your place in a big machine
It's like a lost dream, it's not all that it seems
And take your place in a big a big machine
Your time has come

Feel your passion come alive
Don't forget you're on a power drive

It's not a nightmare, it's time for you to dare
And take your place in a big machine
It's like a lost dream, it's not all that it seems
Get your place in a big machine, yeah

Drivin' down the road with a heavy load
Get your place on the big machine
Hands upon the wheel
Test your nerves of steel
Get your place on the big machine
Time to drive in your big machine
