## **Out of This World**

## Pink Cream 69

Used to be just stories told
No real signs, no laid paths to find
But now there's a place
With answers to the questions

From the beast we try to hide Searching for sanctuary divine We've made our escape Beyond the grasp of reality

Breaking down the walls
We can build a new tomorrow
We can take away the pain...

Out of this world (this world)
I hear the revolution is calling me
Take me out of this world (this world)
The final destination is honesty

And we shall scream when they Hit the ground running Hit the ground running Away from the found out lies

Out of this world (this world)
The secrets will be plain to see
Right out of this world

Generations come and go
Twisted tales leave confusion behind
Pathological cries
Won't mask the calls of the renegades

Breaking down the walls
We can build a new tomorrow
We can take away the pain...

Out of this world (this world)
I hear the revolution is calling me
Take me out of this world (this world)
The final destination is honesty

And we shall scream when they Hit the ground running Hit the ground running Away from the found out lies

Out of this world (this world)
The secrets will be plain to see
Right out of this world

Out of this world...

All those memories locked inside From our eyes, tucked away We search and we will find Revelations As the evidence is shown
All the anger comes to pass
We will rise to the great unknown
Are we ready?

Now the wounds of the ages should heal Diabolical mischief's reveal That the powers to be Can only control us so much

So we fade away with the light Fade away with the light...

Used to be just stories told
No real signs, no laid paths to find
But now there's a place
With answers to the questions

Out of this world (this world)
I hear the revolution is calling me
Take me out of this world (this world)
The final destination is honesty

And we shall scream when they Hit the ground running Hit the ground running Away from the found out lies

Out of this world (this world)
The secrets will be plain to see
Right out of this world

Hit the ground running Hit the ground running Hit the ground running Right out of this world

Hit the ground running
Hit the ground running
Hit the ground running...
