

Since I was 17  
I've always hated my body  
And it feels like my body's hated me  
Can somebody find me a pill to make me un-afraid of me?

Seen every therapist, but I'm a cynical bitch  
(Don't like to talk about my feelings)  
I take another hit, I find another fake fix  
'Cause it's easier than healing

I don't wanna be this way forever  
Keep telling myself that I'll get better  
Every time I try I always stop me  
Maybe I'm just scared to be happy  
Maybe

Since I was 22  
I've been with somebody who loves me  
And I've been trying to believe it's true  
But my head always messes up my heart, no matter what I do

Seen every therapist, but I'm a cynical bitch  
(Don't like to talk about my feelings)  
I take another sip, I swear it's my last fix  
'Cause it's easier than healing

'Cause I don't wanna be this way forever  
Keep telling myself that I'll get better  
Every time I try I always stop me  
Maybe I'm just scared to be happy

I don't wanna be this way forever  
Keep telling myself that I'll get better  
Every time I try I always stop me  
Maybe I'm just scared to be happy  
Maybe I'm just scared to be happy  
Maybe I'm just scared to be happy

I'm so scared of having something to lose  
I'm scared of being somebody new  
I'm so scared of all them seeing the truth  
'Cause right now I've got nothing

But I don't wanna be this way forever  
Keep telling myself that I'll get better  
Every time I try I always stop me  
Maybe I'm just scared to be happy  
Maybe I'm just scared to be happy  
Maybe I  
Maybe I'm  
I'm scared to be happy
