

# We Could Have It All

Pink

There were no black cats in our path  
I've been side stepping cracks in the pavement

Everybody thought we would be the ones to have it all  
I could be the one, we could be the ones that have it

First envy, then comes shame,  
Then secrets and the blame  
Their quiet resignation on your face  
You're spoken on your truce  
You're shaken and you're bruised  
There's nothing left to prove

Always, always we could be  
What you promised me  
So close, so close weren't we?  
We almost had it  
Always, always you can get what you want  
But not what you need  
Someday, someday you and me

We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)

There were no second thoughts in my head  
There were no monsters underneath our bed

Everybody thought we would be the ones to have it all  
We could've been the ones, I should've been the one that have it

First envy, then comes shame,  
Then secrets and the blame  
Their quiet resignation on your face  
You're spoken on your truce  
You're shaken and you're bruised  
There's nothing left to prove

Always, always we could be  
What you promised me  
So close, so close weren't we?  
We almost had it  
Always, always you can get what you want  
But not what you need  
Someday, someday you and me

We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)

We could have it all  
(We could have it all, we could have it all)

We got nothing left to lose  
We got nothing left to prove  
You and I know the truth  
There was nothing else that we could do

Always, always we could be  
What you promised me  
We're so close, so close weren't we?  
We almost had it  
Always, always you can get what you want  
But not what you need  
Someday, someday you and me

We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)  
We could have it all  
(We could have it all, we could have it all)
