

Love Saves the Day

Piotr Rubik

Time gives no reason
And left you for dead
Light seeks the shadows
That dance in your head
When I'm drowning
Can I breathe you
Will I see you again
I can feel you
I believe you
Even though it's in vain

Fate has no answer
Sweet faith will prevail
Who can you run to
When hope fades away
When you're near me
Don't deceive me
Even know I'm blame
I can hide you
Be beside you
There's no blood on my name

When you are down
And it cuts like a knife
Love pathes the way
Love saves the day
Out of the darkness
That lives in your heart
Love can you hear me now

Love is a dark street
Surviving the end
Heart's broken secret
The angels will mend
When I' dreaming
And I need you
Will you reach out for me
I can save you
Liberate you
When you're lost out at sea

When you are down
And it cuts like a knife
Love pathes the way
Love saves the day
Out of the darkness
That lives in your heart
Love can you hear me now

And when you are lost
And there's no place you can go
Love lights the way
Love saves the day
Out of the darkness
That lives in your heart
Love can you hear me now
